**KJELDSSEN, SINNOCK & NEUDECK, INC. CONGRATULATES STAFF ON
PASSING CALIFORNIA EXAM**

Stockton, CA – The local civil engineering and surveying firm of Kjeldsen, Sinnock & Neudeck, Inc. (KSN) is pleased to announce two staff members have passed the California Professional Engineer examination.

Jeffrey Mueller, RCE, successfully completed the October 2008 California Professional Engineer examination, receiving his Professional Engineer license for civil engineering. Jeff received his Bachelor of Science degree in civil engineering from University of the Pacific, Stockton, California. Jeff has been with KSN since December 2002; working on survey crews, providing project inspections, and design and plan preparation.

Elizabeth Regan, RCE, received her Professional Engineer license for civil engineering after successfully completing the October 2008 California Professional Engineer examination. Elizabeth graduated from University of the Pacific, Stockton, California, in 2006, with a Bachelor of Science degree in civil engineering. At UOP, Elizabeth was also involved with the music department and is currently a member of the Stockton Concert Band. Elizabeth has been with KSN since July 2006.

Jeffrey Mueller and Elizabeth Regan bring KSN's professional licensed staff to twelve, which includes eight Registered Civil Engineers and four Professional Land Surveyors.

Kjeldsen, Sinnock & Neudeck, Inc. is a full service civil engineering and land surveying firm specializing in the planning, design, construction management, surveying, and mapping for public works infrastructure, transportation, utilities, flood control, commercial, industrial, institutional, and public facilities projects. KSN has been providing civil engineering and land surveying services to public and private clients throughout California's Central Valley since 1956. KSN, located at 711 N Pershing Avenue, Stockton, maintains a highly qualified staff of civil engineers, land surveyors and technical support staff to meet the varied needs of their clients.
