### **ENGEO President, Uri Eliahu, Receives “Business Hall of Fame” Award**

San Ramon, CA – May 6, 2010 – The Rotary Club of San Ramon inducted ENGEO’s president, Uri Eliahu, into its “Business Hall of Fame.” He is only the fourth recipient of this award.

Mr. Eliahu was nominated because he has made “outstanding contributions to his business’s success, is a positive force in the San Ramon business community, has been an integral part of the business community for at least 10 years, has supported and enriched the community with ‘good works,’ and is not an elected official.”

Steve Wilcox of Summit Financial Group and member of The Rotary Club of San Ramon says that selecting Uri was a unanimous decision based on votes.

“As I called around, I found out how many friends he has,” says Mr. Wilcox. “It’s just amazing.”

Mr. Eliahu’s positive influences in business and in community outreach are often recognized in San Ramon and throughout the Bay Area. In 2007 he was honored by the San Ramon Chamber of Commerce as “Business Person of the Year,” and in 2009 was awarded “Engineer of the Year” in the Private Sector by the San Francisco Section of the American Society of Civil Engineers. Additionally, ENGEO repeatedly attains top local and national Best Place to Work status under his leadership.

[About ENGEO](#)

Founded in 1971, ENGEO is an employee-owned firm of geotechnical and civil engineers, geologists, hydrologists, environmental professionals and construction services technicians with offices throughout California. ENGEO serves a diverse range of public and private clients in the United States and abroad through projects in transportation, infrastructure, water resources, geologic hazards, flood control, energy, industrial development, manufacturing, critical facilities, residential and mixed-use communities, urban infill, Brownfields and transit oriented developments.
